I have reviewed your report "*Evaluation of Cell 2 Liner at the Halifax County Ash Monocells, Roanoke Valley Energy Facility*" dated April 2, 2010. The Solid Waste Section agrees with your recommendations to make the necessary liner repairs and cover the exposed liner areas with 2 feet of ash materials.

The repair work will need to be documented and certified by a Professional Engineer registered in the State of North Carolina and submitted to the Section.

Subject: Halifax County Ash Monocell Cell 2 Liner Evaluation

Mary Whaley,

On behalf of ROVA URS is submitting to NCDENR the evaluation letter for Cell 2 at the Halifax County Monocell. In the letter URS explains what parameters were performed to evaluate the liner and how URS obtained their conclusions and recommendations. Please review the letter and let ROVA and Halifax County know if NCDENR is in agreement with URS recommendations.
